

.me domains

Internet domain .ME is a CCTLD domain of the Republic of Montenegro, and has been functioning since the half of 2008. .ME has an incredible potential for Internet users around the world. Think about it! With .ME domain, the Internet will simply be a story about you. For the first time in the history of the Internet, domain names are essentially personal.

It is expected from .ME domain to be used for personal Web presentations, as well as to be an attractive marketing tool around the world, at the beginning in English, followed by other local and standard domain names that are attractive, for example, in Montenegro, Italian and Spanish language.

It is expected from .ME domains, with their universal significance, to be extremely wanted. PREMIUM Some names, such as: "Contact.ME," "Drive.ME" or "Fly.ME," - were not available from the start but have been kept for later auction after a period of free registration. In the first phase of registration of .ME domain, it was possible only to register a domain for a period of 2 years, however, from 01.10.2008 it is possible to register .ME domain for a period of already 12 months. .ME domain management is performed by doMEn doo company, whose founders and partners are Afilias Limited, GoDaddy.com, Inc. and ME-Net d.o.o..ME domain registration price is 20,00€ for a period of 12 months Users around the world can register available .ME domains (the second level of registration), while special requirements are not needed. If you are still interested in registration of .ME third-level domain (co.me/org.me/net.me/priv.me/its.me), which are intended to citizens and companies that operate in Montenegro, please contact us for closer information about the registration process.
